

SR 32 Eastgate Area Improvements

Eastgate Boulevard to Olive Branch-Stonelick Road

Eastern Corridor, Segment IV(a)

Please join us for a Public Open House!

We will be holding a Public Open House for the SR 32 Eastgate Area Improvements Study on Wednesday, September 28, 2011, from 5:00 p.m. to 7:00 p.m. The purpose of this open house is to seek comments from the public on several conceptual alternatives developed by the project team. The public is invited to visit anytime during the Open House to ask questions and view exhibits; no formal presentation will be given. Personnel from the Ohio Department of Transportation, Clermont County Transportation Improvement District, and TranSystems will be on hand to discuss the study, listen to the public's comments, and answer questions.

Wednesday, September 28, 2011, 5:00 to 7:00 PM
Union Township Civic Center
4350 Aicholtz Road
Cincinnati, OH 45254

Individuals who may require interpretation services or special assistance to participate in this meeting should contact the project team five days or more prior to the meeting for arrangements to be made.

Background

In November 2004, the Ohio Department of Transportation (ODOT) published *Access Ohio 2004-2030, Statewide Transportation Plan*. The statewide plan recognized SR 32 as an important trade and travel corridor. In 2006, ODOT completed the Eastern Corridor Study, in cooperation with Clermont County, Hamilton County, and the City of Cincinnati. The Eastern Corridor Study was a comprehensive look at the transportation needs between Cincinnati and western Clermont County. (More information is available at www.easterncorridor.org.) As part of a multi-modal transportation strategy, this study included a recommendation to consolidate and manage access points to establish SR 32 as a limited access arterial roadway, including elimination of access at SR 32/Glen Este-Withamsville Road, with planned local road improvements implemented separately in support of this improvement. The current SR 32 Eastgate Area Improvement Study seeks to build upon the previous study by evaluating solutions for this area in detail.

Goals

The goals of the SR 32 Eastgate Area Improvements are to reduce congestion and improve safety, consistent with local transportation and economic goals. The project will coordinate with regional plans regarding rail, public transit, community development and environmental restoration.

Public Input

This is an opportunity to provide input on the conceptual alternatives developed for the project. Written comments may be submitted at the meeting, e-mailed, faxed or mailed to the study team. Please submit your comments by **October 26, 2011** to:
